

AORTIC WORKSHOP Aortic Injuries, Dissections & Aneurysm - Hybrid & Endovascular Management Venue: Board Room, AIIMS, New Delhi 24th August 2017	
0855-0900	Welcome Address & Introduction
	Moderator:
0900-0920	Creating a team for management of thoracic aortic injuries & dissections: the workflow management - S K Choudhary
0920-0940	Emergency room evaluation & imaging algorithms - Ajay Yadav
0940-1000	Treatment strategies for acute aortic injuries - Sanjeev Kumar
1000-1030	Role of endovascular repair in management algorithms, case & hardware selection, techniques, outcomes & trouble shooting - Michael Dake
1030-1100	Hybrid and surgical approaches in treatment of throacic aortic injuries - S K Choudhary
1100-1130	TEA BREAK
	Moderator:
1130-1200	Imaging algorithms and treatment strategies in Type B aortic dissection - Priya Jagia
1200-1220	Case, hardware selection and techniques in endovascular repair of Type B aortic dissection - M Dake
1220-1245	Techniques and technologies to extend the landing zone and dealing with hostile neck in aortic dissections - G S Gulati
1245-1300	Discussion
1300-1400	LUNCH WITH HANDS ON (SIMULATORS)
	Moderator:
1400-1430	Techniques and technologies to minimize the risk of Endoleak (TEVAR) and to deal with them if they evolve - V S Bedi
1430-1445	My ten commandements in dealing with endovascular repair of thoracic aortic disease - M Dake
1445-1500	Current indication of surgery in management of Type B aortic dissection - S K Choudhary
1500-1530	New devices, technologies and concepts on the horizon - M Dake
1530-1600	My worse nightmare in cath lab
	1530-1545 : Rajiv Parakh
	1545-1600 : Ajay Yadav
	1600-1615 : B Mohan
	1615-1630 : R Jindal
1630 onwards	Take Home Messages & Concluding Remarks
Workshop is limited to 100 registered delegates, only on first come first serve basis
